

## **In Case of Emergency.....**

Please note that St. Peter has a Medical Emergency Plan and equipment available to assist someone that has an emergency during worship and the many events that occur on our campus. Take a moment to locate the items below.

Automated External Defibrillators (AEDs) are in the following locations:

Center coat room behind the sanctuary (on top of a portable First Aid Station)

South wall behind the double doors leading to the Crossroads

Outside and to the left of the gym doors

At His Rock

**If 911 is called to treat an emergency, please give them the nearest door number to which to respond. Door numbers are located both inside and outside of each door on the campus.**

A Medical Incident report must be completed for each medical emergency. Forms are located in the First Aid station in the coat room and in a mailbox slot in the administrative wing. They should be turned into the church office when completed.

Videos on Hands-Only CPR and AED use are located at <http://www.stpetermacomb.com/> under "Serve, Learn, Grow" Parish Nurse

Thank you for being prepared!
